## Who's Being Unfair Now, Mr. Mayor?

The failure of Commissioners Ladner and Glover to comply with the wishes of the Mayor in supporting a motion he made to collect certain ad valorem and personal assessments, as he calls it, amounting to \$307,491.00, definitely brands, so says the Mayor, the commissioners as being unfair to those taxpayers who paid all of their taxes during the years 1944 through 1947.

The Mayor's statement which was published in a local newspaper is of course unfair to the six taxpayers, including the editor of this paper, whom he singled out of the many hundreds of names included in the auditor's report. The matter of his unfairness to us does not matter, but little thought did he give as how unfair and misleading he was to the people he represents, when he published this statement. He is the Mayor of this city, and the position he holds makes him its number one citizen, and as mayor he owes a duty to his people, to be honest with them, particularly when he speaks on matters pertaining to city affairs.

He charges that the following taxpayers had failed to pay taxes on the following assessments:

Hancock Bank	\$15,625.00
Mrs. Jeanette Carmichael	250.00
A. G. Favre	400.00
Mrs. Jeanette Carmichael	1,300.00
Mrs. Jeanette Carmichael	250.00
S. J. Ladner	60.00
Harry Sumrall	230.00
D. M. Russell	3,200.00
Jeanette Carmichael	1,145.00
S. J. Ladner, Jr.	70.00

This is an absolute misstatement of facts by the Mayor in the wild hope of clouding the issues in the minds of the people of Bay St. Louis.

It is a bold attempt by the mayor, using the vilest type of demagoguery, trying to curry favor to save himself from a recall at the hands of an enraged electorate.

We shall take each item as charged in the mayor's statement and give the record as it stands in the auditor's report filed with the commission council and in the tax rolls of the City of Bay St. Louis.

The assessment of the Hancock Bank in the sum of \$15,625.00 was for the year 1944 on parts of lots 157 and 158 of the First Ward of the City of Bay St. Louis, the old factory site, where the new yacht club is presently located. This property was owned by the Hancock Bank, and was sold on October 21, 1943 by the Bank to the Dorgan Packing Company. The deed is of record in Book G-2 page 227 of the deed records of Hancock County, and this instrument recites that the taxes for the year 1943 are to be prorated between the grantor and grantee.

All taxes are assessable as of the first day of January of each year. Since the transfer of this property was made in 1943 and the taxes for that year were prorated between the Bank and Dorgan, certainly the Bank was not liable for the taxes for 1944 as they did not own the property as of the first day of January 1944.

Even though the Bank was not liable for these taxes as charged by the mayor, the taxes were paid on this piece of property, and if the mayor is the auditor he claims to be, or if he wanted to be fair with his people and not mislead them, he could have turned from page 64 of the City audit, where this item of assessment was listed under the insolvent personality and uncollected realty for the tax year 1944, to page 59 of the city audit, and there he would have found that the taxes for the year 1944, which he charged were not paid, were paid on parts of lots 157 and 158 of the First Ward of the City of Bay St. Louis by the Dorgan Packing Company, who rightfully owed them, under receipt number 1225, dated July 27th, 1945, and that the total tax due on said assessment, and paid by Dorgan, amounted to \$531.25.

Is it the mayor's contention that taxes should be paid twice on the same piece of property?

The assessment of Mrs. Jeanette Carmichael in the sum of \$250.00, on receipt number 473, which was written by the then tax collector, there is a notation that this personal property belonged to Mark Carmichael, her son, who was in the service and who gave his life so that we here at home might continue to enjoy our way of life. No she did not owe this tax. The property on which the assessment was levied was owned by her boy. He and she paid a greater debt for the people of Bay St. Louis than the mere pittance of taxes the mayor claims she owes.

On the other charge of \$250.00 against Mrs. Carmichael the same explanation applies.

On the assessment of \$1300.00 charged to her for the year 1946, receipt number 134 was written by the then tax collector for lots 1 and 2 of Felicity Subdivision for an assessment of \$1300.00, and the mayor, certainly if he is the auditor he claims to be, could have found that the assessment of this property for the year 1946 on line 5 page 9 of the assessment roll shows the assessment to be \$300.00, and on February 1st, 1947, under receipt number 470 Mrs. Carmichael paid taxes in the sum of \$11.40 on this property.

The charge that she owed taxes on an assessment of \$1145.00, the record will show that receipt number 904 for the year 1947, was written covering lots 176-179-180 of the Fourth Ward of the City of Bay St. Louis. Mrs. Carmichael sold lot 179 to a party by the name of Thrash, and Mr. Bourgeois voided the receipt and issued receipt number 1543 on Lots 176-180 of the Fourth Ward, with a valuation of \$745.00. The amount of taxes was \$32.25 and were paid by Mrs. Carmichael. If Mayor Carver had checked the record he would have found it set up as an additional assessment on page 88 of the City audit.

He also says that Commissioner S. J. Ladner, owes taxes on an assessment of \$60.00 for an automobile. Commissioner Ladner states that he did not own a car at that time. On the \$70.00 assessment with a tax of approximately \$3.00, the Commissioner was unable to find where a receipt was issued to him for his personal property, and the possibility is that he owes the city the sum of approximately \$3.00.

The assessment of \$230.00 charged to Harry Sumrall is for an automobile. The records of the county assessors show for that year Mr. Sumrall of the Bay Lee Company, in which name his assessments were made, and the records show that he assessed for three automobiles, one truck, and on the County tax receipt number 432, the Bay Lee Company, with his other personal property, tax in the sum of \$375.00. On receipt number 643 of the City audit, dated January 23rd, 1947, the Bay Lee Company paid taxes on a automobile or truck, one more than in the county, and there still remains in the books receipt number 432 for an automobile which was not paid, and which was assessed to Harry Sumrall personally. Mr. Sumrall states that all of his taxes for his motor vehicles are levied in the name of the Bay Lee Company, and that this is an erroneous assessment. He further states that he was charged with one car, and more than he actually owned, by the City. The total tax on the assessment in question would amount to \$3.74.

The mayor charges that City Attorney D. M. Russell owes taxes in the sum of \$13,240 on an assessment of \$13,240. He again he is incorrect. He had checked the record, he would have found that receipt number 904 for the year 1947 covering this assessment was voided and replaced by receipt number 799 covering the same property with an assessment of \$2,000.00 and that Mr. Russell paid taxes in the sum of \$116.76 to the City on December 27th, 1947, and if he had taken a little more time, he could have found where this additional assessment in the sum of \$2700.00 was listed in the auditors report on page 85.

And now the charge that the editor of this paper had not paid taxes on an assessment of \$400.00, a total tax of \$15.60 for the year 1945, on our automobile. Perhaps the mayor did not know, and did care to check to ascertain the true facts but Mr. Bourgeois made a record in the personal tax rolls that his property was outside of the City Limits. In 1945 the editor and his family were living on Dunbar Avenue, outside the city limits of Bay St. Louis, and we returned to our home on Main street in December 1947. This property was not taxable by the City for the year 1945.

The City audit shows several hundred names of taxpayers which make up the total assessment of \$307,491.00, and the total tax on this amount of assessment would approximate \$12,000.00 would it not Mr. Mayor? From the facts as set out in the report of the audit of the City affairs and from further checking by the City Auditor, with which as Mayor you should be thoroughly familiar, and more so because you are an experienced auditor, how much of this sum do you believe is actually owed the City of Bay St. Louis, and how much do you believe the City could collect?

And now Mr. Mayor tell the people of Bay St. Louis the real reason why you cited only \$22,530.00 of assessment and only the names of 6 tax payers. And, too, tell them why you tried to mislead them and make it appear that this was a total of taxes on the assessments you cited amounted to \$835.45?

Is it because you are so perplexed, confused and puzzled at not being able to gain your ends, that you are striking in your frenzy at those who once befriended you?

Yes, the people you named have taken an interest, not so much righting the wrongs of others, as they have in trying to help you avoid the political pitfalls into which you have fallen, but to no avail. You were probably the most popular man ever to assume the office of mayor in the City of Bay St. Louis, and today you face an election for recall at the hands of your people, after serving only a short space of one year, on a petition signed by approximately 300 voters, 95% of whom were your supporters.

You will have your answer again from the people of Bay St. Louis as to who has been unfair, and who has the interest of the City at heart. Tuesday, January 31st. 1950.

### KILN GIRLS WIN TOURNAMENT

By the Junior-Senior English Class

**SATURDAY, JAN. 21, 1950**

Consistently hitting the basket throughout the tournament, Kiln girls defeated Industrial girls by 30 points in the finals of the Industrial tournament.

**THURSDAY, JAN. 19, 1950**

The Kiln girls played McNeill girls in their first game of the tournament. The McNeill girls were red hot, but the Kiln lassies were too much for them. Kiln won by a score of 87-63.

**FRIDAY, JAN. 20, 1950**

Kiln girls met Picayune girls in the semi-finals. Picayune who had lost only one game this season, had defeated Bay High, of Bay St. Louis, to get into the semi-finals. As the game got underway, fans knew they were going to see a good ball game. It was nip-and-tuck all the way, with both teams fighting desperately, but Kiln was able to hold a small lead all the game. With Picayune unable to stop Kiln tall forwards, the Kiln girls registered a 56-43 decision.

**SATURDAY, JAN. 21, 1950**

Kiln met a fast, hard-fighting Industrial girls' team in the finals of the tournament. Kiln girls had a little trouble holding on to the ball in the first quarter, but snapped into their usual form early in the second quarter. As the second half started, Kiln played better than at any other time of the tournament. They scored 43 points in the last half to win the tournament by a score of 80-50.

Kiln girls scored 223 points in their three games of the tournament to their opponents' 163. Kiln averaged 74 points per game.

Immediately after the boys' finals, in which McNeill defeated Poplarville to win the tournament, there was an all-tournament team announced which included four girls from Kiln: Jane Haas, Mable Haas, Lois Cuevas and Gloria LaCoste. The trophy was presented to the captains of the Kiln team by Mr. J. N. Ste-

wart, Supt. of Industrial high school.

Kiln boys played McNeill in the Industrial Tournament Thursday night, Jan. 19, 1950. McNeill jumped to an early seven-point lead and was ahead 14-11 at the end of the first quarter. The second was the best quarter for Kiln, as they came from seven points behind and went out in front at half time 17-16. Early in the third quarter McNeill captured another seven point lead; but as the game went on the Kiln boys fighting them on even terms, tied the score again. With only one minute to play, McNeill, holding a three point lead, started freezing the ball, as Kiln boys broke their defense in a desperate attempt to get the ball, but came out on the losing end of a 41-35 score.

# WE THE PEOPLE

On Next Tuesday, January 31st, the qualified electors of the City of Bay St. Louis, will be presented with the opportunity of ridding our City Administration of the last vestiges of a "syndicated or ring controlled" official.

This vital and important undertaking was begun in the city elections of 1948, with the election of Commissioner Sylvan Ladner in the first primary by a landslide vote. A week later, we felt confident the job was two-thirds done when Warren J. Carver was elected over the then incumbent mayor, G. Y. Blaize. Our elation over the latter's election however, was short-lived; even before taking the oath of office it became evident Mayor Carver was well on the road to DOUBLE-CROSSING those people who had elected him. After taking office, his record, supported by FACTS showed how conclusive and complete the "double-cross" had become. Our one-third grip, Commissioner Ladner, however, remained steadfast, and through his efforts a long-sought after and much needed State Audit of the City's books was begun. Shortly thereafter, Commissioner Bourgeois resigned and the qualified electors of our city were afforded an opportunity to regain that lost one-third. The results of that Special Election are now history; Cyril Glover, supported by Commissioner Ladner was elected by an overwhelming majority over a candidate supported by Mayor Carver. We, the people had spoken a second time, and we had spoken loudly. The job was again two-thirds complete and this time for keeps. Mayor Carver in his post-election statement said, "the people have spoken with a loud voice." However, Mayor Carver's sense of hearing must have suddenly become seriously impaired, for since that time he has done nothing but harass, agitate and foment discord. He

has become bewildered and imbued with a persecution complex; he has continually attempted to mislead the people with fantastic statements and publications; he has openly become the champion and tool of the syndicated gamblers and racketeers; in short he has become a BOTTLE-NECK and HINDRANCE to a completely FREE AND UNCONTROLLED city administration which we have all hoped and fought for for so long.

Ironical as it may seem, Mayor Carver himself gave impetus to the movement which has resulted in giving us this third opportunity to complete this vital civic undertaking, which was begun in July of 1948. A few months ago, Mayor Carver called the first of a series of so-called "Mass Meetings," attended largely by his gambling and racketeering supporters. These meetings were called for the alleged purpose of attempting to "harmonize our city administration." At the last of these so-called "mass meetings," Mayor Carver and his "friends," railroaded thru a motion to recall Commissioners Ladner and Glover. This motion was made and passed AFTER Mayor Carver had stated to his audience that "things had gone too far for any possible compromise." Some ten days after Mayor Carver's recall petition against Commissioners Ladner and Glover was being circulated, a group of qualified electors of our City instituted recall proceedings against Mayor Carver. Within a relatively short time the necessary 25% of the qualified voters had signed the petition for the recall of Mayor Carver. The petition was filed, certified and an order passed by the ENTIRE council setting the date for the recall election of W. J. Carver, for TUESDAY, JANUARY 31st, 1950.

Let's complete the job -- let's eliminate the bottleneck. Let's stand by our commissioners who have been so faithful with their trust. Let's eliminate confusion and disorder in our city government. Let's assure ourselves of a completely free and uncontrolled city administration.

All of this can be accomplished by our going to the polls on Tuesday, January 31st and vote for the recall of Warren J. Carver, Mayor of Bay St. Louis!!!!

This ad paid for by citizens interested in better government for the City of Bay St. Louis.

## Mayor Carver

In last week's issue of the Hancock County Eagle you published a few tax payer's names, stating they had not paid their taxes. This is a deliberate lie to confuse the people, as you have been trying to do, since you assumed the duties of Mayor.

Do you remember, and do you deny, that at a regular meeting of the Commission Council during the month of September, 1949, prior to setting the Budget, that we had a discussion covering the list of insolvents for the years 1944 to 1947. The City Auditor was also present at this discussion. You were advised that many of the items you mentioned were paid and the former Tax Collector was charged an additional assessment to offset the open items.

The report you had in your possession, and were using at the time you published these names, had notations by each Tax-payer showing the receipt number and date they were paid. The same report you had in your possession at the time you published these few names contained the names of over five hundred other people of Bay St. Louis in the same possible category. We could print these names, but we feel that it would only embarrass more than five hundred people of Bay St. Louis who are undoubtedly in the same category of the ones you published and like the ones you published, have most likely paid their taxes.

Why don't you print the truth, Mr. Carver and quit trying to confuse and mislead the public? ???

## Chiropractic In The News

### Jaundice Yields After Adjustment

LARIMORE, N. D.—After a miscellany of methods had failed to restore her health, Mrs. L. Woodward of Larimore found chiropractic deliverance. Becoming ill, she had been told she had yellow jaundice and was given conventional treatments with no results. Her case was again studied and she was told she suffered from gallstones. An operation was prescribed but due to her condition at the time an operation could not be performed. Meanwhile she could eat virtually nothing. Sometimes she could not even keep water in her stomach. During six weeks in bed she lost weight and strength steadily. Her skin was yellowed. Finally a chiropractor was called in. After detailed analysis, adjustments began. Mrs. Woodward began eating and drinking without distress. After a few weeks, she relates in a notarized statement, she felt well again, her skin cleared and, she adds, "I have been fine ever since."

### Misplaced For Attention

If your spine were around in front where your stomach is, perhaps you would give it more attention and consideration. We are considerably like ostriches; we have our spines where we can't see them and we think there is absolutely no danger there. In reality, the spine and the spinal cords are the most important organs in the body. Our poor stomachs are in front and are abused with an unreasonable amount of attention while we neglect our spine and spinal cords although they do more for us behind our backs than our stomachs do in front.

## It's the other fellow's Telephone...

that makes yours  
so Valuable!

If your telephone were the only one in town, it wouldn't be worth very much to you. It's the people you can call and the people who can call you that makes telephone service mean so much.

The value of your telephone increases as more new telephones are installed. Today there are more than twice as many telephones in service as there were before the war and new ones continue to go in at a record rate. Probably none of your friends or relatives are among these thousands upon thousands of new subscribers. Yes, it's the other fellow's telephone that helps to make yours so valuable.

When you consider how much it does for you at the price you pay, telephone service stands out as one of today's real bargains.

Residents of Mississippi who were prisoners of war or civilian internees at any time during World War II can secure official claim forms from the State Veterans Affairs Commission, Jackson, Mississippi, for benefits to which they may be entitled under the Federal War Claims Act of 1948.

All claims must be filed with the War Claims Commission before March 1, 1951. Only claims filed on the official War Claims Commission forms can be considered for benefit payments.

### ELIGIBLE VETERANS

Persons eligible for benefits under the War Claims Act include military personnel who were prisoners of war in any theater in World War II and certain American civilians who were interned by the Japanese in the Philippines, Midway, Guam, Wake Island or any Territory or Possession of the United States attacked or invaded by the Japanese on or after December 7, 1941. Survivors may be eligible for the benefit, in case of the death of a prisoner of war or civilian internee.

### MAY GET \$1 FOR EACH DAY

Former prisoners of war may receive \$1 for each day of imprisonment on which the enemy failed to provide adequate food. Under certain conditions, civilian internees may be entitled to \$60 for each month of their internment.

The State Veterans Affairs Commission was designated by Governor Wright to assist residents of Mississippi to secure their War Claims forms as soon as possible since payments will be made on a first-come, first-served basis by the War Claims Commission in Washington.

## S. S. C. Ringmen Attention Boys 12 to 17 Years

A basketball league will be organized in Hancock County for boys ranging in age from 12 to 17. For the first time, the league will be organized by the S. S. C. Ringmen. The league will be played in Morristown Park. It will include boys from all over the county who wish to take part.

The league will be composed of as many teams as it is possible to get boys to fill; each team will carry at least fourteen or more players.

The teams will not be sponsored by any individual or firm but will have some adult who is interested in youth movements, to act as counselor for each group. The teams will not be composed of any group of boys who might band together, but after the names of all those who wish to play are submitted to the committee in charge, they will be made up as evenly balanced as possible. Each team will have one or two members of the 1948 and 1949 American Legion teams to act as coaches, managers and field captains of the young players. This assures all teams good coaching and supervision, Mr. Commagere added.

At the end of the season, it is possible that some of the best players will be chosen to make up an American Legion team, provided, of course, that it is decided to enter such a team in this division, the organizer continued.

Gold baseballs will be awarded to each member of the team which wins the championship; second place team members will each receive a silver baseball.

Wednesday nights and Sunday mornings and afternoons are the probable days for games, and it is hoped that the first game may be played in February, weather conditions permitting, the director said. Further details will be given every week in this paper. Watch for them.

Jack Calhoun entertained at the home of his uncle and aunt, Mr. and Mrs. L. M. Gex, at the first King's Party of the year, Saturday, Jan. 13. Alice Dupiquet got the nut and will give the next party.

## Get Pasture Program In Early

By Howard F. Simmons

Early in the year is a good time to get a pasture program into action.

Pastures are easy to grow. The management practices are specific and the pay for them is big.

The four parts to a good pasture program are the plan, fertilizing and mineralizing, seeding and management.

Check your pasture progress against the following points in the program:

The plan takes in the pasture crops to be used and the season each gives the most grazing. No one plant or one combination of plants will give year round grazing in any area.

## PLANTING SEASONS

High land should go into winter and early spring grazing, while low land should be planted in summer and fall grazing. Land covered by water during the winter and early spring months should be planted in summer temporary grazing such as Sudan, Millet or grain sorghum.

Write the plan down and follow it. Then grazing can be had every month.

Fertilizers and minerals for pastures make the plan pay off. Do not try to grow a good pasture without fertilizer.

Phosphate, lime, potash and nitrate are needed for good pastures. One of them is not enough. It takes all four.

In the pasture plan, make soil testing part of the program.

If too little minerals are used, poor growth will result. If too much is used, the cost will be higher than necessary.

Plan to mineralize about one-fourth of the pasture each year, and the cost will not be too high for any one year. Money put out on pastures must be made back as quickly as possible.

In seeding pastures, plan to get as many pasture crops from each area per year as the seasons will support.

Pasture plants need cultivation and harvesting at the right time just as any other crop.

There is a definite time to plant each crop, a specific seeding date and seeding rate.

## OLD IDEA OUTDATED

Most of the pasture plants will grow with another plant. The old idea of just mixing all the pasture grasses and clovers together and letting the ones which take over be the pasture combination is not used any more.

Oats can be used to start most pasture crops. This not only does not injure the pasture plants, but helps pay the cost of starting the pasture.

Combinations with oats include crimson clover, white clover and dallis, red clover, wild winter peas, lespedeza or on renovated sod land.

It is possible to get three grazing crops from the same land during one year if plans are made. For example, oats interplanted with crimson clover will give oats and clover for grazing, crimson seed, and millet for grazing following seed harvest.

## REA Progressed Steadily Last Year

Jackson, Miss.—Annual reports from the 14 cooperative electric power associations affiliated with Mississippi Services, Inc., reveal that steady progress was made during 1949 in Mississippi's rapidly expanding rural electrification.

Information compiled by the 14 member-owned REA associations, which have repaid the government more than \$4,000,000 in principle and interest, shows that 5,504 miles of rural power lines were constructed and energized during the past year. As a result of this extensive expansion project, 19,079 additional rural homes were furnished with electricity for the first time.

## 82,383 Members

As of January 1, 1949, the 14 electric cooperatives had a total membership of 82,383 member-consumers and during the year this figure was boosted to 110,461. At the beginning of 1949, there was a total of 20,695 miles of rural power lines owned by the members of the 14 associations and this line-mileage was increased to 26,399 during the past year.

"It is very gratifying for us to announce this splendid record of progress made by our associations in their rural electrification program during 1949," T. D. Davis, manager of Mississippi Services, Inc., said. "The expansion of rural power lines in Mississippi means that more and more of our fine rural people are being serviced with cheap REA electricity. This means that they are now enjoying a higher standard of living which they so rightly deserve and also gives them an opportunity to increase their farm incomes."

Mr. Davis emphasized the fact that the above figures apply only to the 15 co-ops not in the TVA territory in Mississippi, and said, "It is safe to assume that 11 cooperatives in the TVA area have a similar record of expansion."

Mr. and Mrs. Jack Chevis, nee Lucy Ladner, announce the birth of a son at the Kings Daughters hospital, Saturday, January 21. The baby weighed 7 pounds and four ounces.

Mr. and Mrs. Terrell Perkins announce the birth of a daughter at the Kings Daughters hospital, Saturday, January 21. The baby weighed 7 pound and 1 1/2 ounces.

Mr. and Mrs. Rufus Cuevas, Kiln, announce the birth of a daughter at the Kings Daughters hospital, Tuesday, January 24. Weight: 7 lbs. 8-ounces.

time put in. Mowing is on the top of the list in management.

Alternating grazing to keep from over-grazing is a close second to mowing.

Other good management practices are use of cross fences, good water and shade, and renovation of sod.

"The South will come into its own when pastures are green all year, so grow grass for prosperity," declares W. R. Thompson, associate Extension agronomist who is known as the "pasture man."

When fires burn seeds and little trees, future forests are lost.

Millions are spent every year to fight forest fires.

Nine out of every ten fires are man-caused.

## Week Of Oct. 16 Set For National Meeting

By MISS MADGE ALLRED

The dates have been set for the National Home Demonstration Council meeting to be held in Biloxi with Mississippi home demonstration club women as hostesses. It will be the week of October 16th.

The executive board of the State Home Demonstration Council is meeting this week in Jackson to begin making its plans for this national meeting. It will also plan for the State Council meeting to be held at State College, July 24 and 25, and for district council meetings in March and April.

### BETTER FARM HOME CONTEST

The record books for the 1950 Better Farm Homes Contest will soon be ready for distribution. Home Demonstration Club women in 34 counties are eligible to compete in this contest, but must enroll with their county or home demonstration agent not later than February 15.

The completed record books must be in the county Extension office not later than October 15th.

Ask your county Extension workers more about this contest, the generous awards offered by the sponsor and the basis of awards.

The awards will be based on improvements inside and outside the contestant's home.

A total of 1,636 club women from 32 counties enrolled in this contest last year. The 1949 winners cannot compete again for individual prizes, but can for the sweepstakes award being offered this year.

### HANDI-COAT

For women who shop, and especially for women who do the grocery marketing on foot, the new handi coat, will carry-all, is a happy

combination of good looks and usefulness.

The handi-coat, designed by Clarence Scott of the USDA, Bureau of Human Nutrition and Home Economics, is made of a new-type snower and wrinkle resistant cotton coating. It can be worn rain or shine and over a sweater or liner on cold days.

It is zipped up the front with a long zipper and has a front plate for comfortable walking. It has a hood that stays on and that forms a visor for sun or showers. The shoulder cape gives double protection against rain. The slot made in the left sleeve is ideal for shopping lists. A pencil is attached to the lower right pocket and other shopping needs are in the pocket on the left side.

The carry-all, similar to a big shoulder bag, is made of plastic over stiff cardboard. It is the right size for grocery bags and can be carried to the store folded like a purse. With it goes a slip-on cover for the top of grocery bags.

With this coat, you will not have to fumble for your house key. It is on a pull chain attached inside the right upper pocket. The chain works automatically and flips back into place when you release it.

The coat has plentiful pockets—one for wallet and check book with secure zippers and one for gloves.

Patterns for the coat and carry-all are available in sizes from 10 to 22 and also 40. Ask your home demonstration agent where they are available and for more details about this coat.

# Running In The Red

The President and the Congress are sweating over a \$42,700,000,000 Federal Budget for 1950, which is more money than the average breadearner can comprehend.

If every person in the United States would cash in his life insurance it would be worth about \$44,000,000,000. If every owner of a city residence in the Republic sold his property it would total only \$30,000,000,000. If all the farmers sold out their farms, lock, stock and barrel, it would provide only \$25,000,000,000 and if all industries in the nation converted their net working capital into cash, that would bring only \$39,000,000,000 or enough to run the Federal Government for only eleven months.

And that isn't all. Add to the foregoing staggering Federal Budget the fact that the present administration has been and is now running deeper and deeper into the red, to the tune of 5 to 7 billions annually, and any one that can add two and two can see that the richest nation on the face of the earth is headed down the road to bankruptcy. According to the U. S. News and World Report, the Federal Government has gone in the red 18 years out of the last 20.

The Government is a spending and not a producing agency. It gets the money to run its affairs, to pay interest on its bonds and to retire its debts from the people in the form of taxes. Every cent it spends must come from the pay envelopes or the pockets of the people—from the laborer, the farmer and the business man.

A nation that cannot balance its budget, live within its income and pay its honest debts in a period of unprecedented prosperity, could easily commit financial suicide if caught empty handed in a major crisis. The power to tax is still the power to destroy.

Taxation eats at the economic vitals of the nation. It destroys the initiative of the individual citizen and kills the enterprise of the country's business builders. Devouring 25 percent of the national income, it threatens to impoverish the people.

It is gratifying to find an aroused public opinion expressing itself in favor of economy in Government. The only way taxes can be reduced is for the Government to curtail spending. It behooves us all to appeal to the President and to the Congress to be less careless with the people's money. The Government, like the individual, can remain solvent and prosper only by spending less than it collects.

**How to Get  
That Homework Done**

Miss Gilbert, our grammar school principal, spoke the other night at the regular Parent-Teachers' meeting on getting children to do their homework when they want to listen to the radio.

"We mustn't give them a flat 'no,'" Miss Gilbert said. "If we adults really believe in tolerance and moderation, we should instill these qualities in our children. Listening to the radio is fine—in moderation—as long as homework gets done, too."

From where I sit, the lady was dead-right. This radio vs. homework problem is a wonderful way

to see to it that our youngsters acquire the sensible moderate habits they'll need later on.

I've never believed in hard and fast rules—except where, absolutely necessary. Let the other fellow do as he likes, as long as he's temperate and tolerant. Guess that's why I've never felt we should quarrel with the fellow who is partial to a glass of beer—the "Beverage of Moderation."

## Polio Poster Children Form March of Dimes Honor Guard

1950 drive, following nation's worst epidemic, will be led by Wanda Wiley, escorted by poster children of past four years.

1946: Donald Anderson, Cal.

1947: Nancy Drury, Ky.

1948: Terry Tullos, Mo.

1949: Linda Brown, Texas

1950: Wanda Wiley, Texas

MARCH OF DIMES poster children whose plight and progress depict the fight against polio will lead the 1950 drive, January 16-31. They will make a concerted appeal for greater contributions to provide effective continuation of patient care, research, and educational programs sponsored since 1938 by the National Foundation for Infantile Paralysis.

## Poster Children Form Honor Guard For The 1950 March Of Dimes Girl

March of Dimes poster children of the past four years will form an honor guard to escort the 1950 March of Dimes poster girl, Wanda Wiley of Austin, Texas, on a tour of seven Eastern cities on behalf of the National Foundation for Infantile Paralysis during its forthcoming drive, January 16-31, it was announced last week.

The five children, all of whom have been helped with March of Dimes Funds, will lead the nationwide appeal for greater contributions to continue patient care, research and education programs sponsored since 1938 by the National Foundation. The re-call of poster children from the past emphasizes the need for increased funds following the nation's

worst polio epidemic last year. The cities they will visit include: Washington, D. C.; New York, N. Y.; Boston, Mass.; Philadelphia, Pa.; Cleveland, Ohio; Chicago, Ill.; and Detroit, Michigan.

**WANDA WILEY**  
Eight-year old Wanda Wiley is the second consecutive poster child chosen from Texas to symbolize the annual March of Dimes. Her selection points up the fact that polio may strike an area in successive years and that, while the majority of patients make quick and complete recoveries, thousands like Wanda face a prolonged and costly uphill fight long after the epidemic has subsided.

Wanda was stricken in 1948, two weeks after her 16-year old sister was hospitalized, with polio. Both girls were respirator cases for several weeks; both were sent to Georgia Warm Springs Foundation for convalescent care, with all expenses paid for by the Travis County Chapter of the National Foundation. More than \$6,000 in March of Dimes funds has been expended to date for the care and treatment of the two Wiley sisters. Wanda is now able to get about on crutches and in a wheelchair. She is the daughter of Mr. and Mrs. N. E. Wiley, 3708 Webberville Road, Austin.

**WANDA'S HONOR GUARD**  
Wanda's honor guard in the 1950 March of Dimes includes the 1949

poster girl, Linda Brown of San Antonio, Texas, who will celebrate her fifth birthday on January 13th. Stricken three and one half years ago, Linda has only a slight limp today as evidence of her bout with polio. Home treatments, regular hospital checkups and corrective surgery have steadily improved her condition. She is the daughter of Mr. and Mrs. Leonard Brown, Jr., 234 Cromwell Drive, San Antonio.

The other poster children participating with Wanda and Linda in 1950 March of Dimes are: 5-year old Terry Tullos of Laurel, Miss., 1948 poster boy; 7-year old Nancy Drury of Louisville, Ky., 1947 poster girl; and 9-year old Donald Anderson of Warm Springs, Oregon, 1946 poster boy and first polio patient ever chosen to symbolize the national appeal.

**THE OTHERS**  
Terry, stricken in 1945 before he had learned to walk, has made continuous progress in overcoming crippling after-effects and now has outgrown sufficiently to discard one of his two leg braces. He is the son of Mr. and Mrs. Clarence Tullos of Laurel, Mississippi.

Nancy, victim of the 1944 Kentucky epidemic has completely recovered from her polio attack. Regular physical therapy at home, and in the hospital for several years, has restored her limbs to full functional use. She is the daughter of Mr. and Mrs. Frank Drury, 2533 Rowan Street, Louisville, Kentucky.

Donald, stricken in 1943, wears a body brace part-time and has never been hampered from participation in active sports. He is still under medical care and visits the hospital clinic for checkups every six months. He is the son of Mr. and Mrs. Edward Anderson, Warm Springs Indian Reservation, Warm Springs, Oregon.

## MAKES HONOR ROLL

Miss Sarah Vaughn, freshman student at Mississippi Southern College made the honor roll at the end of the first session.

Miss Vaughn is the daughter of Mr. and Mrs. J. D. Vaughn of this city.

## SPENT HONEYMOON HERE

Mr. and Mrs. Hugh Burbank, Jr. spent their honeymoon here and were registered at Hotel Reed. Mr. Burbank is the son of Mrs. Hugh Burbank and the late Mr. Burbank; the bride is the former Miss Patricia Dyer of New Orleans.

## Congressional Sidelights

by Congressman Wm. M. Colmer

The House Rules Committee, of which we are a member, exploded an atomic bomb, militarily speaking, in the Truman Administration's camp this past week when it reported out a resolution to restore the power of that committee, which had been taken away from it at the beginning of the 81st Congress.

As we have repeatedly pointed out in this column and elsewhere, the rules of procedure in the House were changed under the lash of Administration leaders last January for the purpose of facilitating the passage of the Truman Program including civil rights. Prior to that time, the Rules Committee, through which all important and controversial legislation from reaching the Floor or slow it down until the public generally had had an opportunity to consider it and express their opposition or approval to their duly elected representatives. In other words, the Rules group acted somewhat in the nature of a governor on a mechanical engine. It often prevented hastily conceived legislative proposals from reaching the Floor in the hysteria created by minority groups. Thus it afforded an opportunity for a cooling off period, and in some rare instances actually prevented the proposal from reaching the Floor.

For instance, this occurred in the 79th Congress when that group held the iniquitous and highly controversial FEPC Bill from the Floor, where it was generally conceded it would pass due to pressure groups. For this reason the Administration, taking advantage of the political upset in the last Presidential election, took this power away from the committee and rammed through its so-called 21-day rule by which the Administration leaders could bring any bill approved by a legislative committee to the Floor within 21 days after that committee had acted upon it, thus by-passing the Rules Committee. Under the old rule, however, to which this resolution would return, the House always had and would continue to have the power to work its will by bringing any piece of legislation to the Floor by petition signed by 218 Members (a majority) of the House.

**FEPC**  
As a result of the 21-day rule, the FEPC Bill and a number of other controversial bills which would add to deficit spending are now in order for consideration next Monday.

**IMPLICATIONS**  
The vote on the resolution in the Rules Committee came without warning to the Leadership and the Sponsors of the FEPC Bill and other Administration leaders including the veteran chairman of the committee, Congressman Adolph Sabath of Illinois, with more than 40 years of consecutive service in the House, during a stormy executive session. It was carefully planned and executed by a coalition of 4 Southern Democrats, 1 Northern Democrat, and 4 Republicans, with a resulting vote of 9 to 2.

The resolution must still pass the House itself, and all are agreed that a bitter fight will ensue before final determination. Again it is generally conceded that the Administration will leave no stone unturned to prevent this revolution in the House from becoming effective. For, in addition to the civil rights proposals, the Administration's whole program of deficit spending and other so-called liberal policies is at stake.

### THE TRAGIC BLOW

The South took it on the chin again this past week in Congress. President Truman again delivered the blow. The one and only hope that the Southerners in the House had in defeating the mis-called Fair Employment Practices Act in that body was shattered on Friday last when President Truman aided by his strange bedfellow—lieutenants, the Society for the Advancement of Colored People, the CIO, the AFA, the big city machines, the left-wing groups, the Communist Party and 64 weak-kneed Republicans teamed up to defeat a chance in the rules which had effectively blocked that iniquitous legislative proposal on former occasions.

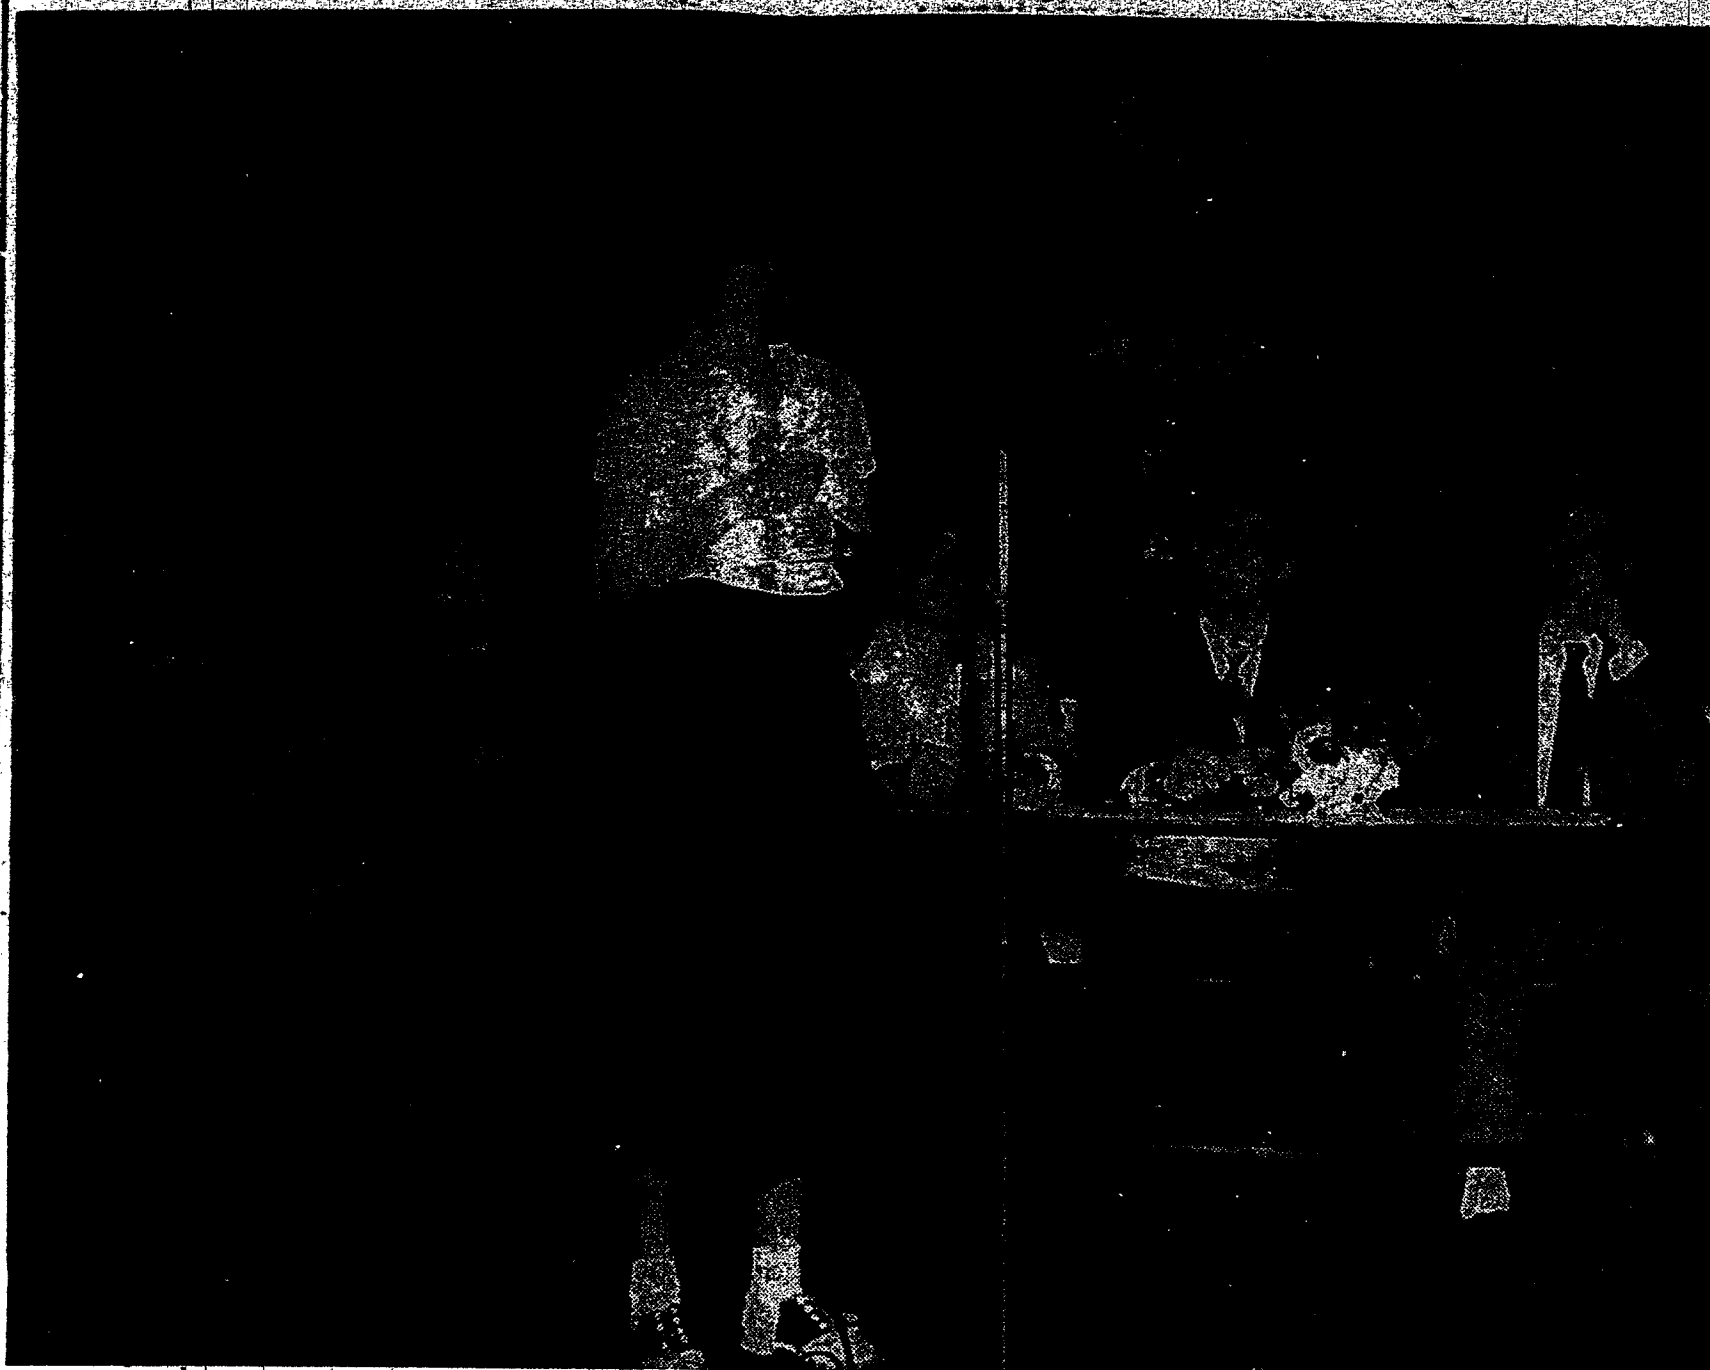

As we have repeatedly pointed out in this column, a filibuster under the rules of the House, unlike in the Senate, is impossible. Therefore, the House, in the absence of the Power of the Rules Committee to serve as a governor or cooling-off chamber, is at the mercy of minority pressure groups. Many of the legislative committees of the House are stacked with proponents of these minority groups.

### CIVIL RIGHTS THE ISSUE

Realizing that if the civil rights and other similar measures of the President's program were to clear the House, the Administration leaders in that body, taking advantage of the 1948 election, repealed the old rules of the House last January as the first order of business and instituted the so-called 21-day rule by which the Rules Committee could be by-passed and these measures brought to the Floor in 21 days for a vote. Strangely enough it was the Roosevelt Administration which put through the old rule by which the Rules Committee could hold up legislation for a cooling-off period.

Again, those of us opposed to these measures have long realized that if we were to stop the FEPC and similar unwise legislative proposals, we must return to the old rule of the House under which it would require a petition signed by 218 (a majority) members of the House. Therefore, last March a group of us got together and agreed that a resolution would have to be passed repealing the 21-day rule. Congressman Eugene Cox, the ranking member of the Rules Committee was agreed upon as the man to introduce that resolution. It was introduced and permitted to lie in wait until we thought the strategic moment had arrived. Since it was obvious to all that we must have strong Republican support, if the move was to succeed, the Republican leadership agreed with us at the beginning of the Session early this month that the time had arrived. It then became my responsibility as Chairman of the Southern group to line the Southerners up for the proposal. This was no easy task in view of the pressure that was applied by the President, the Speaker, the Majority Leader and the National labor groups. But the fact remains that we did succeed in getting 85 Southern members out of a possible 104. It is significant that we had a solid vote for the resolution in Mississippi, Alabama, Louisiana, Georgia and Florida; losing one in South Carolina, two in North Carolina, two in Virginia and five in Tennessee. However, the fight was lost due to the fact that the Republican leadership were unable to hold 64 of their members (practically all from big Northern and Western cities) in line. The result for the resolution 183—against 236.

In the debate on the Floor it was definitely made clear by both the Republican leadership and Majority Leader McCormack that the issue was FEPC and the deficit spending program.

Jeanne Turpin was S. J. A. speaker at the recent Coast Union Meeting. Left to right: Rev. P. Bambrick, Rev. Peter Killen, Pastor of St. John's Biloxi, John Gutnecht, Secretary; Roy Gulotta, Prefect and Ralph St. Amant, Treasurer.

### TRANSFERRED TO FLORIDA

Mr. Tate Campbell, who has represented the Louisiana Coffee Company here for a number of years, has been transferred to Pensacola, Florida. Mr. Campbell will be in charge of the work in Pensacola. His family will join him later when he gets settled and finds a house.

—Mrs. J. T. Wolfe has returned from Hotel Dieu, New Orleans, where she was for ten days under treatment. Mrs. Wolfe is much improved.

—Mrs. John Melvin, New Orleans, is visiting Mrs. Leigh Carroll at her home on North Beach.

### FEPC

Had the Cox Republican carried the Rules Committee would have continued to keep the FEPC bottled up, but since it failed Speaker Rayburn, will, under the 21-day rule which remains in effect, recognize Chairman Lesinski of the Labor Committee to call up this unwise proposal within the next 30 days, and as we see it now there will be enough Northern Democrats and Republicans to pass it overwhelmingly. The only hope then is the Senate filibuster.

### Scharff Is Winner In Idea Contest

Joseph R. Scharff, operator of the Bay Saint Louis Jitney-Jungle store, was winner of the grand prize for submitting the best all-round idea for good-will builders.

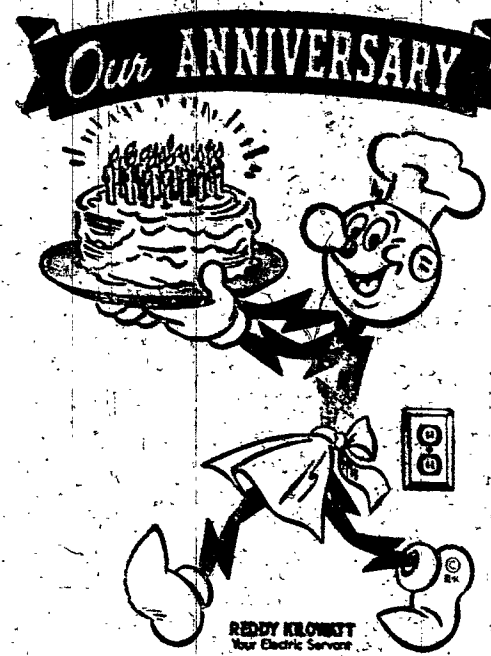

Mr. Scharff's winning suggestion was submitted in December 1949 and dealt with the success his store experienced after installing a free coffee bar as a Jungle Queen coffee sales booster and customer good-will builder.

Winning second place in the idea contest was Jerry Hilliard, Opelika, Alabama, Jitney-Jungle operator who outlined his profit making "Give a ham for Christmas" merchandising stunt. Both Hilliard and Scharff were selected as winners by all three judges.

Acting as judges for the contest were F. M. Martinson, broker; Clay Alexander, advertising executive; and Richard McRae department store owner and operator. All of the judges are residents of Jackson, Mississippi.

Monthly winners will receive cash awards and a grand prize will be given to the individual sending in the year's best suggestion.

## Years Of Building For Mississippi

As the bells sounded to ring out the old year they also rang out a quarter century of service by Mississippi Power Company.

On January 1, 1925, the new company began service to some fifty-five hundred customers along the Gulf Coast. As the months and years went by new properties were constructed, new lines built, new electric facilities placed in service. And now twenty-five years later more than seventy-five thousand customers are being served directly, scores of communities are being served which had no electricity in 1925, and our generating facilities in Southeast Mississippi have a capacity exceeding all the plants in service in the entire State in 1925.

As we blow out the candles on the birthday cake we renew our pledge to continue to build for Mississippi, and to bring to everyone the advantages of modern electric living.
